German Railway Signalling Principles Dr Joern Pachtl . German Railway Block & Locking Principles Dr Joern Pachtl 2 ... Main tracks are the German equivalent to the British running lines. These are all tracks that may be regularly used by train movements. Main tracks must be equipped with signal installations required for train movements.

### **German Railway Signalling Principles - DriveHQ**

Railway signalling is a system used to direct railway traffic and keep trains clear of each other at all times. Trains move on fixed rails, making them uniquely susceptible to collision. This susceptibility is exacerbated by the enormous weight and inertia of a train, which makes it difficult to quickly stop when encountering an obstacle.
