Pattern day trader is a FINRA designation for a stock market trader who executes four or more day trades in five business days in a margin account, provided the number of day trades are more than six percent of the customer's total trading activity for that same five-day period.

Pattern day trader - Wikipedia

Short-term trading refers to those trading strategies in stock market or futures market in which the time duration between entry and exit is within a range of few days to few weeks.. There are two main school of thoughts: swing trading and trend following. Day trading is an extremely short-term style of trading in which all positions entered during a trading day are exited the same day.
