The Moon is an astronomical body that orbits planet Earth and is Earth's only permanent natural satellite. It is the fifth-largest natural satellite in the Solar System, and the largest among planetary satellites relative to the size of the planet that it orbits (its primary). The Moon is after Jupiter's satellite Io the second-densest satellite in the Solar System among those whose densities ...

The Muslims of Fiji comprise approximately 7% of the population (62,534). The Muslim community is made up of people of Indian origin, descendants of indentured labourers who were brought to the islands in the late 19th century by the British colonialist rulers of the time. The majority of the Indian-Fijian community is Hindu and an estimated 16% is Muslim.
