Oracle Technical Manager/Consultant Resume - Hire IT

o INCTCM module: Process transactions interface This program processes material transactions following changes in any of the transactions form. For optimal processing speed the system manager responsibility should be used to tune the Inventory Manager. The initial setup for this is defaulted with a single target process setup.

Import material transactions using process transaction

In addition to the functional security, Oracle Advanced Pricing provides an additional level of security called pricing security. Pricing security provides an additional security which can be used to restrict pricing activities such as updating and viewing pricing entities to users who are granted specific access privileges.
