Environmental monitoring describes the processes and activities that need to take place to characterise and monitor the quality of the environment. Environmental monitoring is used in the preparation of environmental impact assessments, as well as in many circumstances in which human activities carry a risk of harmful effects on the natural environment.

Targeted killing is defined as a form of assassination based on the presumption of criminal guilt. [citation needed] Some analysts believe it to be a modern euphemism for the assassination (premeditated killing) of an individual by a state organization or institution outside a judicial procedure or a battlefield.[citation needed] Since the late 20th century, the legal status of targeted killing ...
