Fortron® PPS Processing and Troubleshooting i Foreword This revised issue of the Fortron® PPS Processing and Troubleshooting Guide (FN-6) is made necessary by both the advances in processing information and the introduction of new Fortron® PPS grades since the first edition was published in 1988.

## **Processing And Troubleshooting Guide (FN-6)**

Wicking is caused by moisture entering a crack in the outer jacket of a cable (1) (common with age, stress and temperature variations) or through the wire strands.. Wicking is most common when the equipment and wires cool down after operation (2). Any air that expanded with heat now condenses and creates a vacuum.

Packaging is the science, art and technology of enclosing or protecting products for distribution, storage, sale, and use. Packaging also refers to the process of designing, evaluating, and producing packages. Packaging can be described as a coordinated system of preparing goods for transport, warehousing, logistics, sale, and end use.

A microwave oven (also commonly referred to as a microwave) is an electric oven that heats and cooks food

by exposing it to electromagnetic radiation in the microwave frequency range. This induces polar molecules in the food to rotate and produce thermal energy in a process known as dielectric heating. Microwave ovens heat foods quickly and efficiently because excitation is fairly uniform in ...
